MaxPro Crimping Pliers: Professional Grade Tool

The MaxPro Crimping Pliers are ideal for crimping ferrules per DIN 46228 standards, suitable for both insulated and non-insulated types. This versatile tool is designed for crimping wires ranging from 23 to 6 AWG (0.25 to 16 sqmm), ensuring compatibility across a wide array of electric wires. The ergonomic handle and optimized leverage facilitate fatigue-free operation, enhancing comfort and precision.

MaxPro products are designed to offer an excellent price/quality relationship, providing professional-grade performance.

Choose MaxPro for quality, efficiency, and long-lasting performance.
